

Operations Delivery Intern

Description

Triumph Power and Gas (TPG) is seeking a dynamic and motivated Engineering Operations Interns to join our Operations team for 12months. The Operations Delivery Intern will assist in delivering high-quality operations services, with a focus on workshop activities management and tools inventory management. The position holder will support the operations team in executing daily activities, streamlining processes and ensuring efficient delivery of services or products. This role offers hands-on experience in operational management, logistics and project coordination within a dynamic and fast-paced environment.

Responsibilities

- Support the Assistant Operations Delivery Manager in managing and maintaining tools, ensuring their readiness and optimal performance for field activities.
- Conduct regular health checks on equipment and tools to prevent downtime and ensure reliability.
- Assist in the planning, coordination and execution of operational tasks and support the monitoring of workflows to ensure timely delivery of projects and services.
- Collect, analyze and maintain data related to equipment and tools inventory and delivery performance, and generate reports to provide insights into key performance indicators (KPIs) such as equipment manifest, etc.
- Adhere to safety and quality standards during all service operations.
- Support to prepare all project management documents and report on tools and equipment performance for continuous improvement.
- Support project monitoring and reporting.
- Support with equipment, tools and personnel logistics across all work fields and base.
- Support with daily and routine base operations in Port Harcourt.
